

why not have your cake...and eat it?

Fused Networks Converged Solutions

Bonded ADSL2+ LLU Service

Based on our flexible, modular up to 24Mb broadband service, the Fused Networks Bonded ADSL solution is designed to be a quick and flexible way of increasing capacity or to support bandwidth intensive applications such as IP telephony.

flexible, cost effective connectivity

- Cost effective alternative to leased lines
- Excellent for bandwidth intensive applications
- Quality alternative when enhanced or premium DSL services not available
- Quick to deploy for business continuity
- Allows for gradual increases to a network according to requirement
- Quickly increase resiliency in specific areas of your network
- Extensive coverage – available wherever ADSL is available
- Excellent way to counter-act slow ADSL speeds due to location from exchange
- Offers additional bandwidth for multi site companies (i.e. increase bandwidth between HQ and one specific bandwidth intensive remote office)
